10911	Planning updates/general Information – for information only The chair commented that the Ambulance Make Ready Centre had now been approved unanimously. It was expected to create 80-90 new jobs mainly cleaning. There was not expected to be any major noise as they would be routinely cleaned and going out for the staff to use. The 4th solar Farm in Ripe has also been approved. There had been a lot of debate and there were some concerns by the National park, but these had been addressed by the developer and had been approved. The capacity of these farms was likely to bring the grid close to full capacity. It was therefore unlikely that even if the wind farm was granted permission that it would actually be able to connect to the grid. The wind farm appeal was due to go ahead in July, and the pre enquiry day was due late May. The main inquiry was likely to be for 8 days and counsel was being employed on both sides to defend the case. A number of councillors raised concerns about the flashing coloured lights at Gibby's and the enormous sign that had been erected on the fence panels at the crossroads. The clerk was asked to write to the appropriate authority to check on enforcement issues.
